**CofC BASKETBALL CAMP**  
**COVID-19 WAIVER**

The novel coronavirus ("COVID-19") has been declared a worldwide pandemic by the World Health Organization. COVID-19 is extremely dangerous and is believed to be spread from person-to-person contact. As a result, federal, state and local governments and federal and state health agencies recommend social distancing. SC DHEC also makes the following recommendations for event organizers:

- Collaborate and coordinate with community partners including the local public health department, hotels where participants are staying, airlines, the event venue, and other partners.
- Use event messaging and communications to promote everyday preventive health messages to your participants and staff, which include:
  - Stay home when you are sick, except to get medical care. If you experience symptoms of Coronavirus, COVID-19. MUSC Health encourages you to do a free virtual visit at <https://campaigns.muschealth.org/virtual-care/index.html>. Enter promo code COVID19.
  - Cover your coughs and sneezes with a tissue or sleeve, then throw the tissue in the trash.
  - Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
  - Avoid touching your eyes, nose, and mouth with unwashed hands. ♣ Clean frequently touched surfaces and objects daily.
  - Recommend that participants minimize close contact (e.g., recommending no hand shaking or hugging)
- Promote messages that discourage people who are sick from attending events. Create refund policies or remote participation capability such as live stream that permit participants the flexibility to stay home when they are sick, need to care for sick household members, or are at high risk for complications from COVID-19.
- Provide COVID-19 prevention supplies at your events, to the extent supplies are available. Plan to have extra supplies on hand for event staff and participants, including sinks with soap, hand sanitizers, and tissues. Promote proper and frequent hand hygiene.
- Isolate staff or participants in a designated space who become ill with symptoms consistent with COVID-19 at the event and provide a clean disposable procedure facemask, to the extent available, to wear for those who become ill. It is not necessary to distribute masks to healthy participants.
